**Concord, NH** - Tomorrow, the State of New Hampshire is launching a new testing site in Concord, NH. The testing location will be at 28 Stickney Avenue and will be open seven days a week 11:00 AM — 7:00 PM. Residents with any COVID-19 symptoms, with underlying health conditions, over the age of 60, or who are healthcare workers can request and reserve a test.

Interested individuals can sign up and reserve a test by going to the [online portal here](#). They can also email [covidtesting@dhhs.nh.gov](mailto:covidtesting@dhhs.nh.gov), call the COVID-19 Coordinating Office at 603-271-5980, or by going through a health care provider.

The state's volunteer medical corps, MMRS, is also partnering with the New Hampton Fire Department to increase community-wide access to testing by mobilizing a one-day testing site in New Hampton on Saturday, May 16, at the New Hampton Fire Department at 26 Intervale Drive.

"We are ramping up our capabilities and rapidly expanding access to testing," said Governor Chris Sununu. "This is one of our top priorities, and we are making huge strides every day."

The COVID-19 Testing Registration portal is key to the State's ongoing efforts to increase access to COVID-19 testing by ensuring qualifying residents can schedule a test without a referral from a medical provider.

There are now seven drive through testing sites as part of the Community-Based COVID-19 Testing Program. The fixed drive through testing locations are in Claremont, Concord, Lancaster, Milford, Plymouth, Tamworth and Rochester.
